plX Announces Plans to Revolutionize \$3.5 Billion Patent Industry Through Global, Internet-Based Patent Auction Market

BUSINESS WIRE

January 22, 1999

Journal Code: WBWE Language: English Record Type: FULLTEXT

Word Count: 935

ANAHEIM, Calif.--(BUSINESS WIRE)--Jan. 22, 1999--

plX Will Bring Patent Buyers and Sellers Together

with Secure and Efficient Transfer of Intellectual Property

The Patent and License Exchange(SM) patent auction market (plX(SM)) Friday released its plans to open the first business-to-business, global Internet-based auction facility for the safe and efficient transfer of quality patents and licenses.

Company founder and Chief Executive Officer Nir Kossovsky delivered details about the new exchange in a symposium titled "Breaking the University-Industry Technology Transfer Logjam," at the American Association for the Advancement of Science (AAAS) annual meeting.

According to Kossovsky, "Patents are the most valuable asset a business can have today -- they fuel the global economic engine." Currently, more than 600,000 patents are available for license or sale. An additional 265,000 patents join that global inventory annually. On average, a patent will be three years old before it is sold or licensed.

Kossovsky added, "Currently, everyone in the value chain loses: inventors, patent owners, businesses, and the public, as they are all deprived of the benefits of novel products and the associated revenues." The cash value of this loss is more than \$500 million annually(a).

"The Patent and License Exchange global auction market will do for patents what the Chicago Board of Trade did for grain in the late 19th century," said Kossovsky at the AAAS symposium. "Patents are not commodities; they are a set of rights which in an efficient market, could be nearly as liquid as financial instruments."

There are two reasons today why the patent market is inefficient. First, buyers and sellers can't find one another. Second, when they do, buyers end up assuming most of the risks. plX solves these problems through a sophisticated searchable database with standard disclosures, a transparent pricing model(b), and new patent insurance products.

The patent auction market's key success factor is the quality of its participants. plX invites world-class global law firms, universities, government research laboratories, research institutions, and commercial banks with patent inventories, and companies with new product needs, to qualify for an electronic seat.

Seat holders will include owners of quality patents, businesses with a track record for patent development, and global law firms representing buyers and sellers.

Among the unique features of the plX auction market are its risk transfer solutions. Providing patent insurance creates a more risk-free marketplace by reducing the risk that buyers and sellers bear in each patent sale. The company is currently talking with Swiss Re Group about creating a complete package of patent validity, infringement, and

enforcement insurances.

According to Bill Hoffman, associate director of Integrated Risk Solutions, Swiss Re New Markets, "Pending the approval of our executive board, we will provide innovative patent insurance products for plX to facilitate the safe and efficient commercial transfer of quality patents and licenses. Patent insurance is a new area for the insurance industry and one we believe has significant growth potential."

Swiss Re New Markets is a division of Swiss Re Group. Swiss Re Group is one of the world's leading and financially strongest reinsurers with gross premiums of \$11.94 billion in 1997. Standard & Poor's assigns the company its "AAA" rating and Moody's rates it "Aaa."

According to Kossovsky, "Swiss Re is the ideal exclusive strategic partner for plX patent insurance because of its tradition of creative, high-capacity risk management and innovative risk products."

plX is also talking with Chicago Title Insurance Co. about developing a new patent escrow product. According to Sharon Yarber, senior legal counsel, "Real estate escrow helps reduce transaction risk by providing a secure service for the exchange of money and documents. The innovative patent escrow products we are creating for plX will reduce certain risks for patent buyers and sellers."

Chicago Title is one of the largest title companies in the United States. Yarber says that the company's goal is to provide patent escrow services to both national and international plX customers through its centralized escrow services based in Los Angeles.

Founded in 1999, the Patent and License Exchange has headquarters at 225 South Lake Ave., Suite 300, Pasadena, Calif., 91101, 626/405-0690, info@pl-x.com.

plX is the first global, business-to-business, Internet-based auction facility for the safe and efficient commercial transfer of quality patents and licenses. plX provides global customers with easy-to-search patent inventory, on-line bid placement, secure chat-room negotiation, closing services (escrow) and aftermarket license administration. For more information, visit the company's Web site at www.pl-x.com.

Swiss Re Develops Patent Validity Insurance for The Patent & License Exchange

Business Wire

Thursday, April 22, 1999 00:00 EDT

Journal Code: BW **Language:** ENGLISH **Record Type:** FULLTEXT **Document Type:** NEWSWIRE**Word Count:** 660**Text:**

PASADENA, CALIF. (April 22) BUSINESS WIRE -April 22, 1999

- Swiss Re New

Markets (SRNM), a division of the Swiss Reinsurance Company, has developed a new patent validity insurance product that will be available for patents and licenses bought and sold on The Patent & License ExchangeSM (pl-x.comSM). pl-x.com is the first global member-based e-commerce forum for the sale of patents and licenses.

The new Swiss Re patent validity insurance coverage will be sold to pl-x.com by a Swiss Re Group company licensed to do business in the United States. The coverage will automatically cover every patent and license transaction closing on pl-x.com (<http://www.pl-x.com>). This innovative risk transfer product will enhance market liquidity because each pl-x.com patent buyer or licensee will be insured for the amount of the up-front purchase price paid for each patent and license. This will create a more risk-free market on The Patent & License Exchange. According to William Hoffman, associate director of Integrated Risk Solutions, Swiss Re New Markets: "Patent validity insurance is a win-win product. It promotes the growth of a new market by reducing risk. Sellers as well as buyers benefit from this coverage. Businesses with marketable intellectual property seeking to deploy their valuable but non-performing intangible assets benefit from the increased number of buyers who are willing, ready and able."

SRNM's patent validity coverage indemnifies the patent buyer or licensee for amounts lost due to a later invalidation of the patent. Each pl-x.com buyer or licensee is protected against the risk of financial loss that can arise when the purchased patent is declared invalid. Invalidity could be declared, for example, if the inventor or patent applicant failed to disclose information in the patent application process or because of outright fraud, such as a fictitious patent or a patent offered for sale by someone other than its owner. Coverage can be provided for the buyers' purchase price or license fees, plus tooling costs and even for investment in developing the new product from the patent rights acquired.

SRNM has also developed other intellectual property insurance coverages including third-party patent infringement liability coverage. pl-x.com is now enrolling members and will host its first patent auction in the fall. The pl-x.com business process is patent-pending.

According to Nir Kossovsky, president and CEO of pl-x.com: "Patents are the fuel that drive the engine of our knowledge economy. The Patent & License Exchange is creating an e-commerce market to help both institutions and entrepreneurs realize the value of their intellectual property. Swiss Re New Markets' insurance coverage is a key component of our patent market."

Swiss Re New Markets is a member of the Swiss Re Group and specializes in the development of tailor-made integrated risk financing solutions for the world's largest corporations and insurers. Swiss Re is a

leading reinsurer with more than 70 offices in more than 30 countries. In the 1997 financial year, gross premium volume amounted to CHF 17.4 billion (USD 11.9 billion) and the profit after tax amounted to CHF 2.1 billion (USD 1.5 billion). Swiss Re is rated "Aaa" by Moody's and "AAA" by Standard & Poor's. For more information, please send an e-mail to SRNM@swissre.com.

The Patent & License Exchange is the first fully integrated e-commerce forum for the sale of rated, insured and independently-priced patents. pl-x.com offers an easy-to-search patent inventory, patent valuation and suggested pricing, Swiss Re's patent validity insurance, secure on-line bid placement, and escrow and after-market license administration. pl-x.com has headquarters at 225 South Lake Ave., Suite 300, Pasadena, Calif., 91101-3009, 626/405-0690, www.pl-x.com.
